TUGAS PENDAHULUAN 4

A. SOAL

1. Buatlah sebuah aplikasi **Flutter** yang menampilkan:
 - a. **AppBar** dengan sebuah **CircleAvatar** di bagian kiri dan teks "Welcome, NIM – Nama" di bagian kanan.
 - b. Sebuah **Container** berwarna (misalnya dengan **gradient**) yang posisinya berada di **tengah bawah layar**.

B. JAWABAN

Source code

```
import 'package:flutter/material.dart';

void main() {
  runApp(const MyApp());
}

class MyApp extends StatelessWidget {
  const MyApp({super.key});

  @override
  Widget build(BuildContext context) {
    return MaterialApp(
      debugShowCheckedModeBanner: false,
      title: 'Flutter Demo',
      theme: ThemeData(
        // Perbaikan syntax di Line 24
        colorScheme: ColorScheme.fromSeed(seedColor:
Colors.deepPurple),
      ),
      home: const MyHomePage(title: 'Flutter Demo Home Page'),
    );
  }
}

class MyHomePage extends StatefulWidget {
  const MyHomePage({super.key, required this.title});

  final String title;

  @override
  State<MyHomePage> createState() => _MyHomePageState();
}
```

```

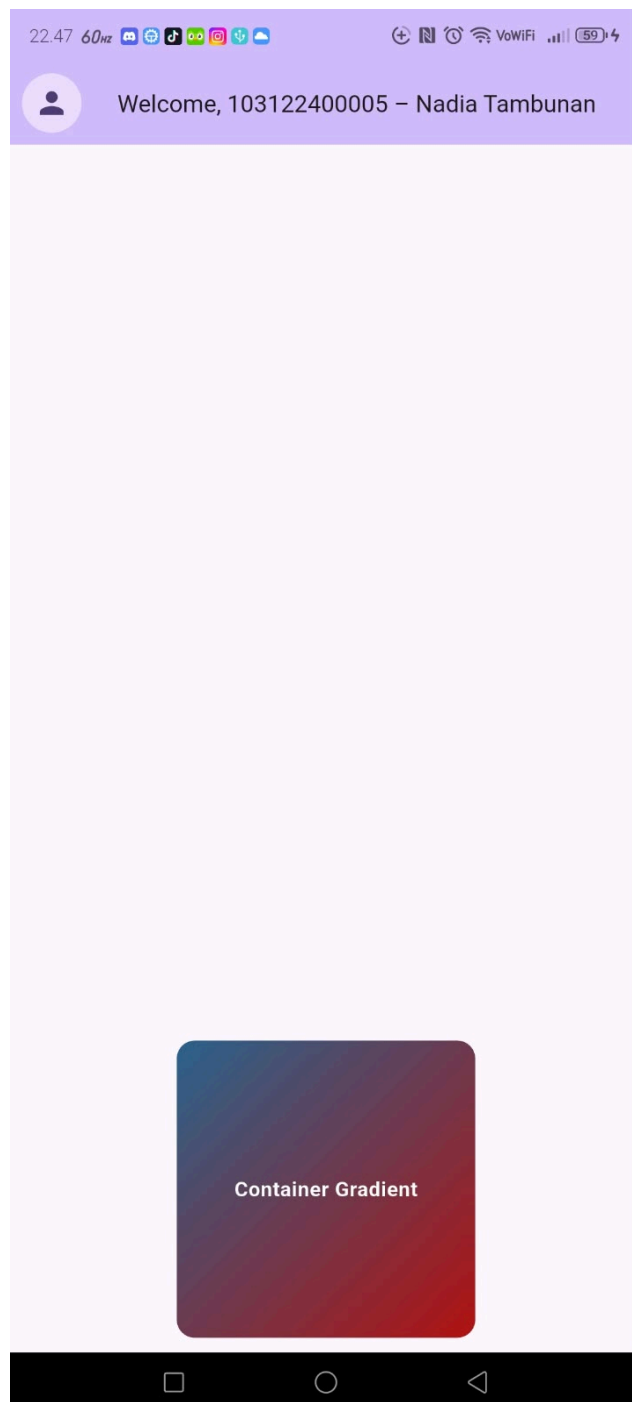

}

class _MyHomePageState extends State<MyHomePage> {
  @override
  Widget build(BuildContext context) {
    return Scaffold(
      // Perubahan di Line 66 (AppBar)
      appBar: AppBar(
        backgroundColor:
Theme.of(context).colorScheme.inversePrimary,
        leading: const Padding(
          padding: EdgeInsets.all(8.0),
          child: CircleAvatar(child: Icon(Icons.person)),
        ),
        title: const Text(
          'Welcome, 103122400005 - Nadia Tambunan',
          style: TextStyle(fontSize: 16),
          textAlign: TextAlign.right,
        ),
      ),
      // Perubahan di Line 73 (Body)
      body: Align(
        alignment: Alignment.bottomCenter,
        child: Padding(
          padding: const EdgeInsets.only(bottom: 10.0),
          child: Container(
            width: 200,
            height: 200,
            decoration: BoxDecoration(
              borderRadius: BorderRadius.circular(12),
              gradient: const LinearGradient(
                colors: [
                  Color.fromARGB(255, 44, 99, 143),
                  Color.fromARGB(255, 179, 19, 19),
                ],
                begin: Alignment.topLeft,
                end: Alignment.bottomRight,
              ),
            ),
            child: const Center(
              child: Text(
                'Container Gradient',
                style: TextStyle(
                  color: Colors.white,
                  fontWeight: FontWeight.bold,

```

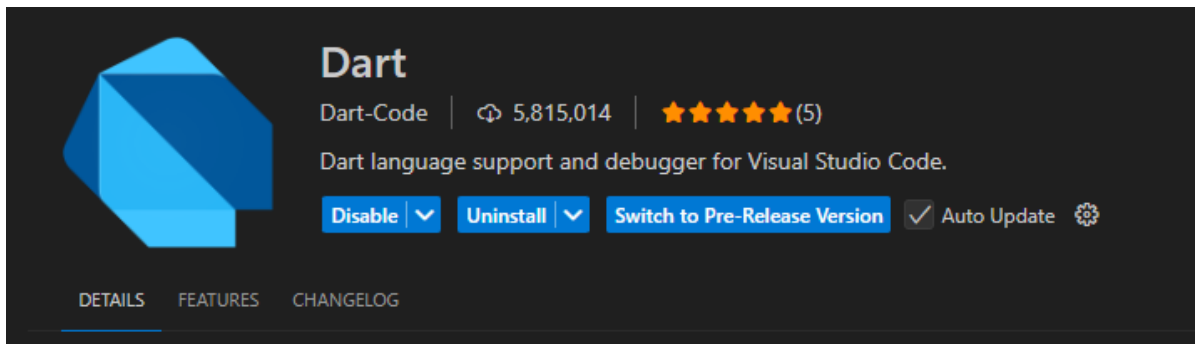

Screenshot Output

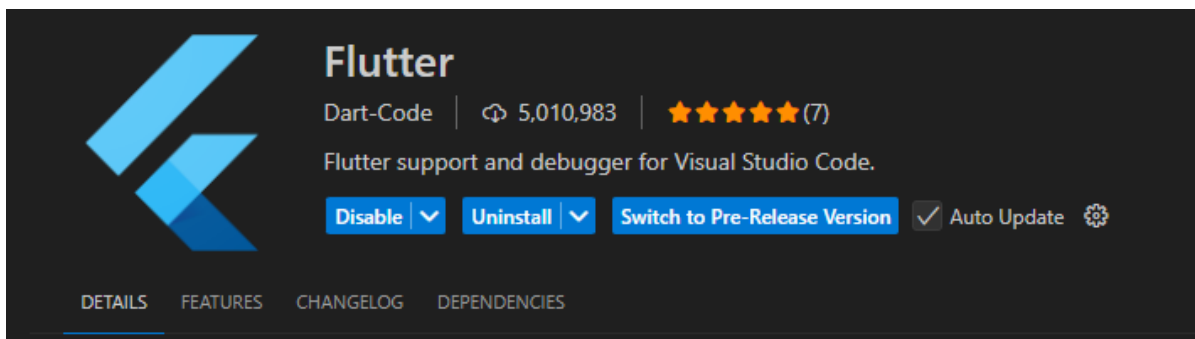

Deskripsi Program

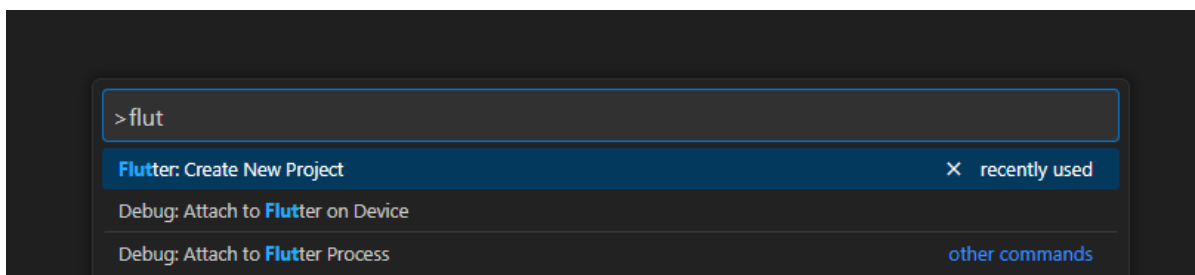

1. Install Extension Dart

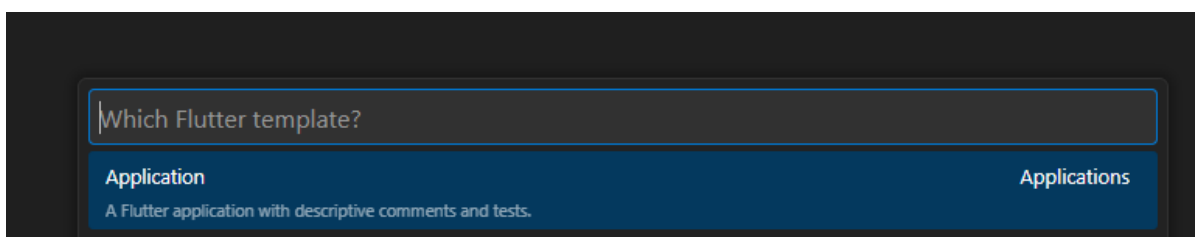

2. Install Extension Flutter

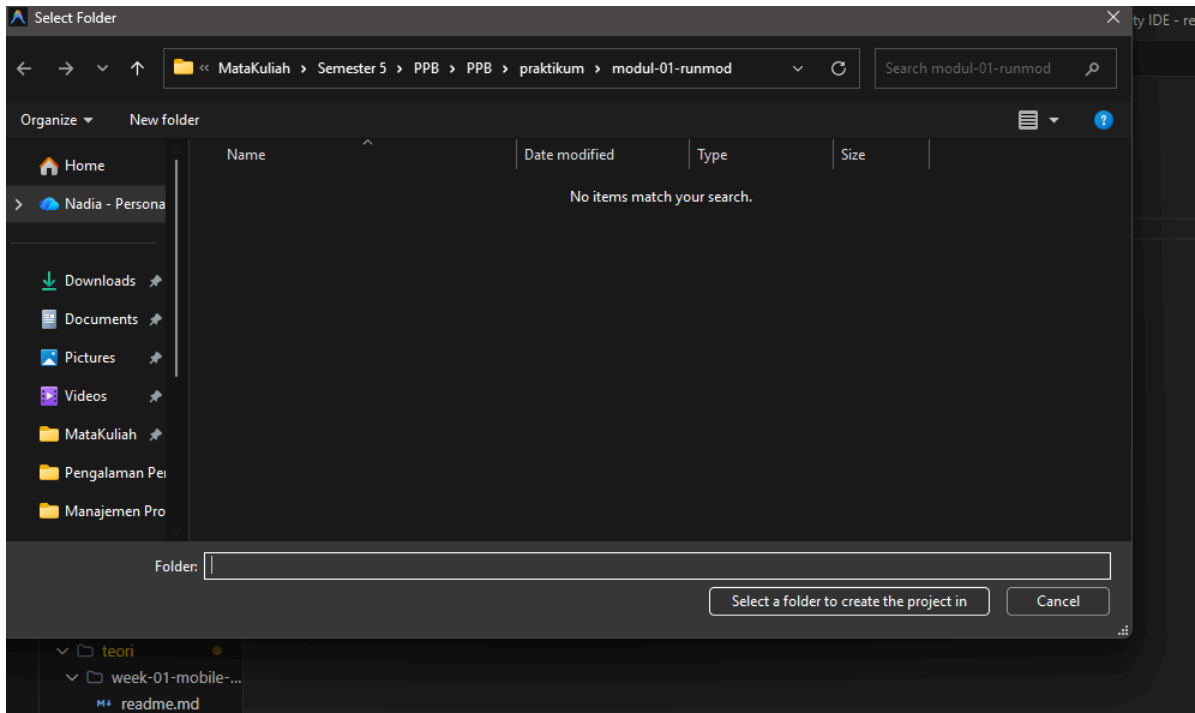

3. ctrl + shift + p, lalu cari flutter, kemudian klik Create New Project

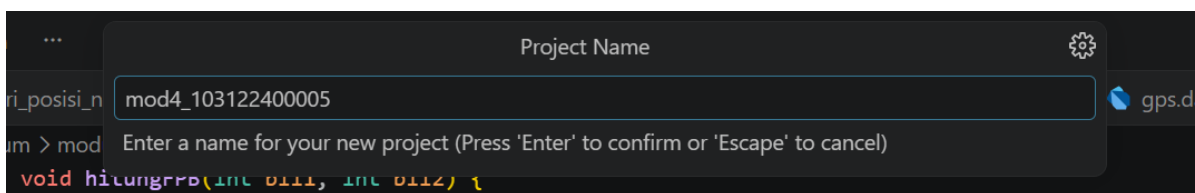

4. Pilih Application

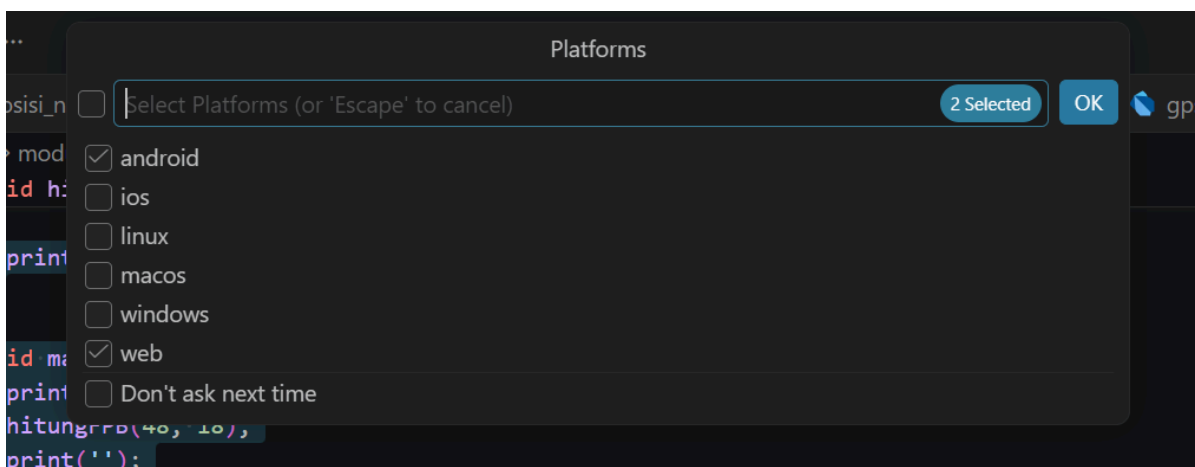

5. Pilih Folder

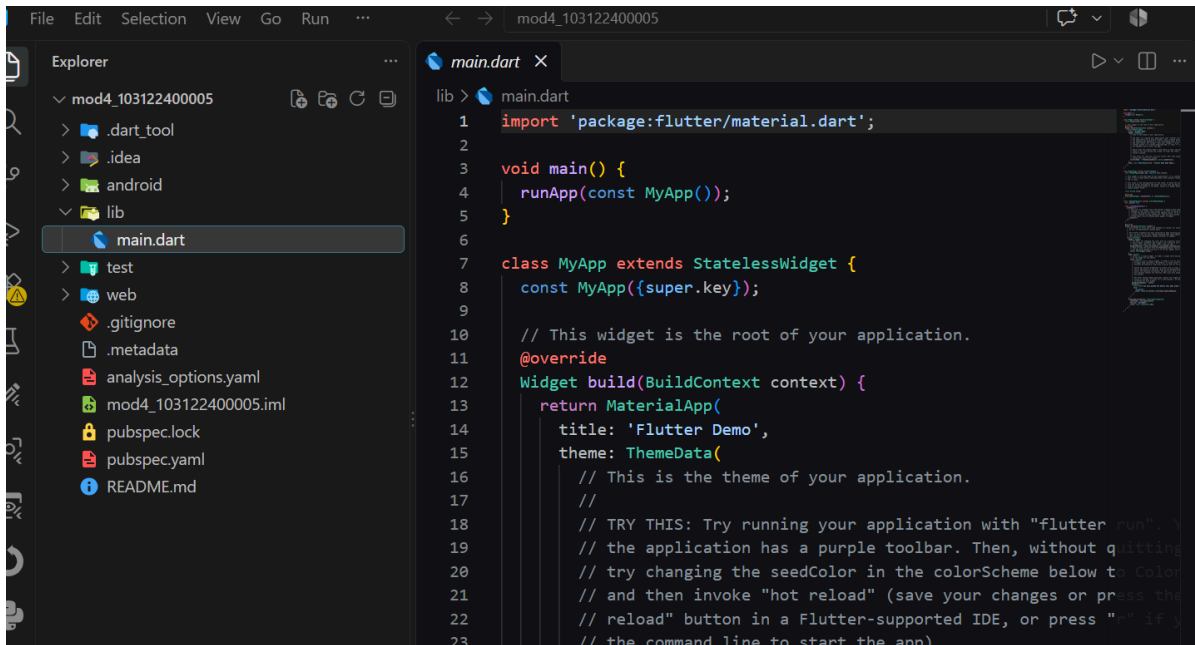

6. Kasih Nama project

7. Pilih projectnya untuk platform apa aja

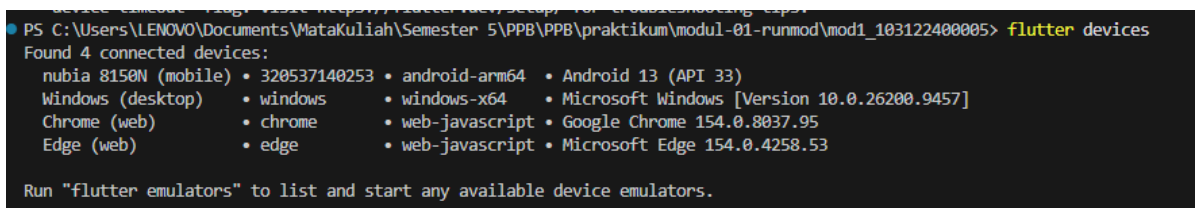

8. Framework project sudah terbuat

9. Nah karena laptop saya kasian kalau disuruh menjalankan emulator, saya sambungin aja langsung ke hape untuk nge run project. Yang pertama saya connect android saya ke laptop dengan USB

10. Kemudian saya jalankan flutter devices

11. Kemudian saya jalankan perintah flutter run -d nomor yang muncul setelah identitas hape kita
